## Manufacturers Representatives

Let Firesafe Associates bring customers to you!

### Mission Statement

The mission of Fire Safe Associates is to:

-  Establish distribution outlets for our complete line of quality fire, safety and haz-mat products;
-  Provide a quality line of products and reasonable price while providing services, deliveries and technical assistance to our customers;
-  Create value added sales through extensive marketing and training of both distribution sales staff and fire department personnel;
-  Create a territory wide network of distribution in all market niches including, municipal and industrial fire, fire apparatus dealers and OEM accounts, government fire authorities & safety/police products distribution;
-  Provide demonstration and training services to all clientele, including live training on Large Diameter and small diameter fire hose, valves, appliances, foam products, rescue saws, PPV fans, smoke machines, nozzles and entry tools; Provide demonstration products to fire authorities so they may evaluate the product lines in the field during actual fire fighting environments;
-  Represent our principle product lines at national and regional trade shows, and work with distributor sales staff in the field;
-  Represent manufacturer s on industrial trade groups and committees such as NFPA , ULIAAC, IFS TA and IAFC in order to hold the principles best interests while making the fire services job an easier and safer one; and
-  Provide consulting and expert legal services regarding the use, safety and liability factors involved with the use of fire hose and water supply systems.
