ALO

Model 230651N01

AirBoss-Defense CBRN Lightweight Overboot

As part of a special US Military Joint Services procurement initiative AirBoss was the sole company selected for contract award following Phase II testing of AFS overboots.

AirBoss-Defense is a division of AirBoss of America Corp., one of today's most respected and trusted global manufacturers of high performance proprietary rubber-based products. With a capacity to supply over 250 million pounds of rubber annually to a diverse group of rubber manufacturers, AirBoss is one of the North America's largest custom compounding companies.

AirBoss-Defense is a world leader in the development and sale of Chemical, Biological and Nuclear (CBRN) protective wear.
