MOBILE FIREGROUND REHAB CENTER

COMMANDER REHAB

EXPANDABLE TRAILER TECHNOLOGY

- BUILT TOUGH
- QUICK SETUP
- EASY TRANSPORT

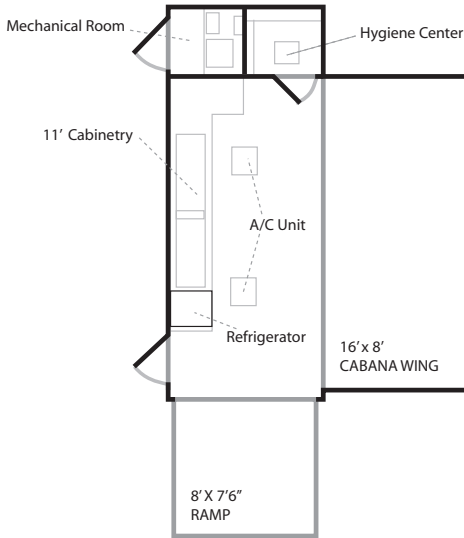

Create a central hub from which all responder rehabilitation operations are administered! The health and well-being of firefighters, EMS and other first response personnel is often overlooked despite the grueling requirements their minds and bodies are put under everyday. Safeguard their lives with the Commander Rehab from Nor E, the fireground rehab trailer designed by firefighters for firefighters. The Commander Rehab provides the self-contained, environmentally controlled work space to effectively monitor and care for their needs on-site, including rest, rehydration, medical care, shower and restroom facilities. The Commander Rehab is easy to transport and setup--it takes less than 5 minutes! Get the unit that's been proven effective that customers have called "worth every penny" and credited with "saving firefighters' lives."

COMMANDER REHAB
