

The Commander

Expandable Trailer Technology

- ✓ **Mobile Temporary Facility**
- ✓ **Deployed – 2 people/ 5 minutes**
- ✓ **Creates up to 535 sq. ft.**
- ✓ **Up & Off the Ground**

The Commander is a “Ready to Respond” multi-task mobile operations platform that quickly creates a temporary secure facility, putting your team and equipment to work faster than ever imagined.

On-scene management demands a collection of task specific tools and a secure base from which to operate. The Commander is advanced shelter technology aimed at improving responder capabilities, enhancing life and property saving services in a platform that is environmentally controlled and UP and OFF the ground.

As an 8½' x 20' 7500 lb. tandem axle trailer, the Commander has the cargo space of 1000 cubic feet or 2500 lbs., and is designed to be towed simply by a medium duty vehicle.

Deployed the Commander creates up to 535 sq. ft. of self-contained workspace, and is available in four (4) floor plans, 300 sq. ft., 350 sq. ft., 480 sq. ft., and 535 sq. ft. Require even more mobile space? Link one Commander to another...to another... just “Imagine the Possibilities”!
