

## COMMANDER HARDSIDE

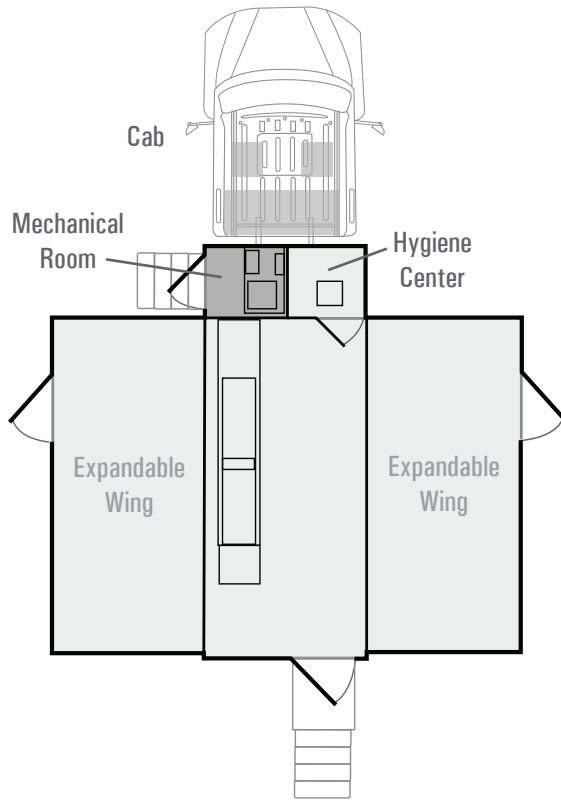

INSTANT MOBILE WORKSPACE

### 400 SQUARE FEET OF SECURE, SELF-CONTAINED, MOBILE WORKSPACE

The Commander Hardside is a 'Ready To Respond' multi-task operations platform that quickly creates a temporary secure facility, putting your team to work faster than ever imagined. The Commander Hardside combines unmatched instant mobile workspace with the strength, security and reliability of hardwalled foldout insulated construction, the perfect combination for every remote operation. Remote on-scene management demands task-specific tools and a secure base from which to operate. The Commander Hardside dramatically improves responder capabilities, enhancing life and property saving services in a customizable unit that is environmentally controlled and up off the ground. The Commander Hardside expands to create 400 square feet of operational workspace in just 20 minutes.....Imagine the Possibilities!

## KEY BENEFITS

- **400 square feet of mobile workspace**  
The Commander Hardside expands into 400 square feet of self-contained workspace via Nor-E Expandable Wing Technology, providing maximum workspace with easy transport
- **Environmentally controlled and secure**  
The Commander Hardside is secure, self-contained and up off the ground insuring operational capability even in harsh conditions
- **Lots of storage**  
730 cubic feet of storage including 11 feet of upper and lower interior cabinetry as well as four exterior storage compartments with automatic lighting make gear easily accessible
- **Easy access generator**  
Exterior mounted generator with driver side access makes operation and maintenance easy
- **Hydraulic leveling**  
Push button hydraulic truck leveling simplifies setup
