F.D. Rehab Trailer

Nor E First Response, Inc. introduces our F.D. Rehab Trailer. A rugged, fully featured response trailer designed by Fire Fighters, to serve Fire Fighters. Economically towed by a medium to heavy duty utility vehicle, the F.D. Rehab Trailer is easily deployed by 2 persons in less than 5 minutes providing much needed rehab space at the job site for weary Fire Fighters and EMS workers. With utility beyond imagination, this 8' x 20' heavy duty trailer quickly transforms into 275 square feet of private job site sheltering utilizing the patented Cabana wing.

Features

- Compact 160 sq. ft. utility size trailer quality becomes 275 sq. ft. of environmentally controlled rehab space
- Curbside Cabana wing expands seating and rehab space without blocking traffic on driver's side
- 15' of upper and lower cabinetry for supplies and consumables storage
- Under counter refrigerator for beverages and medical supplies
- 30,000 Btu air conditioning w/ heat pumps
- Weather protection strips on both rear ramp and side man-door entries
- Exterior driver's side 7' x 16' awning
- Portable generator w/day tank for up to 9.5 hours of stand alone operational capability
- Portable power mister with powerful fan and self contained water storage tank for additional hot weather relief
- Durable Turn-out gear rack
- Tough floor coating with easy to clean wall surfaces
